

Project Status report

Name:	David Kim
Community (UN SD goal):	Eye Vision Care Community, focusing on UN SDG #3: Good Health and Well-Being, SDG #4: Quality Education, and SDG #8: Decent Work and Economic Growth
MVP #	MVP 3 – enhancement feature including categorization and enable comment
Sprint cycle dates:	November 20, 2023 - December 1, 2023

Project Name	BlinkBoost
Blurb	BlinkBoost is a specialized application designed to offer digital eye exercises tailored for students and office workers. Additionally, the platform features a community forum where users can exchange insights about eye health, including beneficial foods and supplementary aids. This project resonates with several UN Sustainable Development Goals: SDG 3 (Good Health and Well-being), SDG 4 (Quality Education), and SDG 8 (Decent Work and Economic Growth). As the initiative progresses, the vision remains adaptive to the evolving needs of the community, ensuring the provision of a digital habitat that truly benefits its members and introduces a positive change in global eye health.
For Week Ending	December 1, 2023
Project Status	● Green
Status Description	Happy Project Wrap-Up Day! I have completed the addition of MVP 3: Implementing the categorization & comment feature. The final project presentation to my class went smoothly, and I was able to showcase my application without any issues. I believe I have successfully completed all my Minimum Viable Products within the sprint cycle dates and have concluded my project successfully.

Activities—During the past sprint cycle

- Enhancement of MVP 1:
 - Introduced a pop-up display for each exercise, detailing the benefits for eye health, as recommended by Dr. Maciag in Scrum 2.
- Finalization of MVP 2: Forum & Discussion Board
 - Improved the CSS design to enhance user interface aesthetics.
 - Conducted tests on forum posts to ensure data is accurately stored.
- Initiation and completion of MVP 3: Categorization & Comment Feature
 - Added a categorization section in the post sections (Food & Nutrition, Supplements, Exercise).
 - Implemented a comment feature on each post.

Project Issues

- No issues encountered.

Project Changes

- Following Dr. Maciag's recommendation, I have upgraded MVP 1 by adding a pop-up display that explains how each exercise supports eye health.

Activities—Planned for Next Week

- Prepare for project wrap up:
 - Ensure all project codes are uploaded to GitHub.
 - Complete documentation on how my project work relates to the lectures we discussed.
 - Create a project commercial video.
 - Submit the Project report-out and lessons learned documents on URCourses.

Reflection

Do you feel "on track"?

- Absolutely. The project met all of its goals within the expected time frame, and the successful final presentation is proof of this.

What progress do you particularly feel good (great) about?

- I'm very satisfied with how smoothly MVP 3 was integrated. The enhancement of the pop-up display, as well as the completion of the forum and discussion board are highlights that demonstrate significant progress.

What barriers (if any) do you feel are a current impediment to success?

- Fortunately, this sprint cycle went smoothly, with no major roadblocks.

What help (if any) do you require to move positively forward?

- For now, the project is in a strong position. However, peer reviews and user feedback will be invaluable for future refinements and iterations.
-
